 - 11/2 (Wed) 2pm

Layout

navbar

slide to delete or share

Hints

- Project structure
 - Only need HomePage. But you can use more
- Data structures
 - JournalList: array of each journal
 - Journal: json object with photoURI, Time, Title
- Storage
 - Install SQLite plug-in
 - ionic plugin add <https://github.com/litehelpers/Cordova-sqlite-storage>
 - Use Storage class: it uses SQLite if available
- Time
 - use date pipe
 - <https://angular.io/docs/ts/latest/api/common/index/DatePipe-pipe.html>
